Terms and conditions of the License Agreement

RAV Reliable AntiVirus is a registered trademark of GeCAD Software S.R.L. (hereafter referred as "GeCAD Software"). All the products from the **RAV AntiVirus** family are offered to our clients under the terms and conditions of the License Agreement accompanying all the products of GeCAD Software.

Before installing or using The Software, please read carefully this License Agreement, because it represents a legal agreement between you and GeCAD Software for the software product you are installing, which includes the software itself and the related documentation. By installing or otherwise using the software, you accept all the terms and conditions of this agreement. If you do not accept the terms of this agreement, you do not have the rights to install or otherwise use The Software.

On the distribution CD-ROM, you may find other programs, in addition to the one you have bought. These programs are offered for evaluation only and are the object of separate terms of license. These terms are included in the **Evaluation license** section of the **License Agreement**.

RAVCGATE configuration file

NAME

ravcgate - RAV AntiVirus external filter for CommuniGate Pro.

SYNOPSIS

`${BINDIR}/ravcgate`

DESCRIPTION

This is the external filter program executed by CommuniGate Pro server in order to scan all messages for virus protection and/or content filtering. The program runs as a "filter client" for **ravmd**.

USAGE

- Set your domain names as values for the domain field in the **domains** file (you can find it in `${ETCDIR}`).
- Open your web browser and connect to the CommuniGate Pro's web administration interface. If you installed CommuniGate Pro using the default values, type <http://127.0.0.1:8010> in the address bar.
- Open **Settings->General->Helpers**.
- Check **Content filtering** and add the following path in **Program Path**:
`${BINDIR}/ravcgate`.
- Click on the **Update** button.
- Go to **Settings->Rules** and create a new rule (i.e. **rav**) and choose **Action** as **External Filter**.
- Create the **ravms** account (this account will be used for sending warning mails via the SMTP local port opened by CommuniGate Pro): **Go to Accounts->Create Account ravms**

Important: For more details on how to make a rule for an External Filter, visit <http://www.stalker.com/CommuniGatePro/VirusScan.html#Scanning>.

Note: RAV AntiVirus can scan multiple files in parallel. To activate this facility you must select more processors in **SETTINGS->Queue->Message Enqueuer**.

ENVIRONMENT

RAV_DATA_PATH

Starting with version 8.4.1 of **ravmd** the installation directories can be relocated. The environment variable must be declared before starting the CommuniGate Pro server and must point to the new location of RAV data files (**rave**, **log**, **run**, **tmp**, **ravmd.key**, etc.).

BUGS

Please mail bug reports and suggestions to: ravteam@ravantivirus.com
